## STARCH PASTE KETTLE MACHINE

### SPECIFICATIONS :-

- **Capacity:** Ranges from 50 liters to 1500 liters, customizable to specific requirements.
- **Material:** Constructed from high-grade stainless steel (SS 304/316) to ensure durability and hygiene.
- **Design:** Features a hemispherical bottom for efficient heating and mixing.
- **Heating System:** Available with options for steam, electric, or thermal oil heating systems.
- **Agitator:** Fitted with a robust anchor-type agitator for thorough mixing and prevention of lump formation.
- **Tilting Mechanism:** Incorporates a manual or hydraulic tilting mechanism for easy discharge of the paste.
- **Temperature Control:** Equipped with advanced digital temperature controllers for precise control.
- **Insulation:** Double-walled construction with high-quality insulation material to maintain temperature and energy efficiency.
- **Safety Features:** Includes safety valves, pressure gauges, and emergency stop buttons for secure operation.
- **Additional Features:** Options for variable speed drives, automated control panels, and CIP (clean-in-place) systems for ease of maintenance.

These specifications ensure that the starch paste kettle is versatile and reliable, catering to the diverse needs of different industries.
